

K-LOVE is the only radio station my wife, sons, and I listen to in southern Indiana. It provides uplifting music and messages that have become invaluable to my family.

Furthermore, I know in excess of one hundred people who also listen exclusively to K-LOVE and would be devastated if priority were given instead to LPFM.

K-LOVE serves the community of Seymour, Indiana and surrounding communities by providing commercial-free encouraging music as well as providing Christian counseling services over the phone. Apart from the music, without the local K-LOVE station (91.5, WJLR), people in need would be unaware of the counseling available to them through the K-LOVE organization.

Please, do not elevate the LPFM priorities to the level that the FM translator services such as K-LOVE would lose their frequencies. My family relies on the good news and good music provided by K-LOVE, as do many others in the area.

Thank you for your consideration.

Sincerely,  
Randall Johnson
